Beijing University of Posts and Telecommunications

University Profile

Brief Introduction of BUPT

Established in 1955, Beijing University of Posts and Telecommunications (BUPT) is directly administered by the Ministry of Education (MOE) and co-built by the Ministry of Industry and Information Technology (MIIT). It has been one of the key universities in China that has entered the national first "211 Project" and "985 Innovative Platforms for Advanced Disciplines Project". BUPT is also a multi-disciplinary and research-oriented one with information technology as its main feature and a focus on engineering and science, offering a wide range of subjects including engineering, management, humanities and sciences for the pursuit of its coordinated development. It serves as an important talent base for China's information technology industry.

After over six decades of development, BUPT boasts a strong academic background in information technology as well as an edge in disciplines featuring IT, two of which, namely "Information and Communication Engineering" and "Computer Science and Technology", have been included in China's "double first-class" list. In addition, according to results released by China's Ministry of Education in the Fourth Round National Evaluation of Disciplinary Development in Universities, BUPT's "Information and Communication Engineering (ICE)", "Computer Science and Technology" and "Electronic Science and Technology" were evaluated at or above A Class, and ICE was evaluated at A+. Besides, our "Electronic Science" discipline was ranked 19th in 2020 US News Best Global Universities Rankings and "Computer Science and Technology" ranked among the Top 1% of ESI worldwide.

The university actively enhances the connection with universities for building friendly and cooperative relationships and strengthens the inter-university exchanges as the breakthrough point of the international educational exchanges, and continuously expands the cooperation with world-class universities and scientific research institutions. At present, it has established cooperative relationships with over 160 famous universities in more than 30 countries and regions, and signed nearly 300 agreements. The Confucius Institute at the University of the South Pacific has established a pattern of running schools in three countries and four regions.

The university has four campuses, namely, Xitucheng Campus, Shahe Campus, Hongfu Campus and Xiaoxitian Campus, as well as advanced research institutes in Wuxi, Jiangsu Province and Shenzhen, Guangdong Province.There are nearly 23,000 full-time undergraduate, postgraduate, doctoral and international students, and about 55,000 part-time students with full registration. International students study and live on the university's main campus, Xitucheng area. Currently, international students come from more than 50 countries.

中 Programs taught in Chinese

Undergraduate Programs （for Bachelor's Degree/Exchange students）

Index	School	Major
1	School of Computer Science and Technology	Computer Science and Technology
2	School of Humanities	Chinese Language(for International Students)
3	School of Artificial Intelligence	Artificial Intelligence
4	School of Modern Post	Supply Chain Management

Master's Degree / General Scholar Study Programs/ Exchange students

Index	School	Major
1	School of Information And Communication Engineering	Information and Communication Engineering
2	School of Computer	Computer Science and Technology
3	School of Computer	Software Engineering
4	School of Cyberspace Security	Cyberspace Security
5	School of Digital Media and Art	Journalism
6	School of Digital Media and Art	Journalism and Communication Studies
7	School of Digital Media and Art	Design
8	School of Humanities	International Chinese Language Education

Doctoral Degree /Senior Scholar Study Programs/ Exchange students

Index	School	Major
1	School of Electronic Engineering	Electronic Science and Technology
2	School of Information And Communication Engineering	Information and Communication Engineering
3	School of Computer	Computer Science and Technology
4	School of Computer	Software Engineering

E Programs taught in English

Master's Degree / General Scholar Study Programs/ Exchange students

Index	School	Major
1	School of Economic Administration	International Trade

Doctoral Degree /Senior Scholar Study Programs/ Exchange students

Index	School	Major
1	School of Electronic Engineering	Electronic Science and Technology
2	School of Electronic Engineering	Optical Engineering

Length of Study

Undergraduates at Beijing University of Posts and Telecommunications study for four years. Graduate students (Master's Degree) study for two to three years. Graduate students (Doctor's Degree) study for four years. Visiting students and research scholars generally stay for a year or two.

One academic year is divided into two semesters, spring and fall. The fall semester begins the new academic year, generally from September until January of the following year. The spring semester is usually from February to July. There are two long holidays every academic year, summer holiday and winter holiday. The summer holiday usually lasts for 5 weeks during July and August, when the school will arrange summer holiday courses. The winter holiday usually lasts for 4 weeks, during January and February.

Tuition Fees

1. Application fee: 500 RMB
When sending the applications, applicants should submit 500 RMB Yuan to BUPT.(Non-Refundable)

2. Accommodation and Room Facilities
50 RMB Yuan/bed*day
Ps. 24-hour hot water supply; Wi-Fi and air conditoner available in the dorm
